— Housty Homelift

# Artistic Lifts Illuminate the Aesthetics of Life

With our ideal solutions for homelift products and services, HOUSTY is committed to lifting the quality of life and becoming a global leader in the homelift industry. HOUSTY brings decades of experience in design and manufacturing, embodying the rich heritage of British industrial craftsmanship. We are dedicated to creating a premium lifestyle. Focusing on the screw-driven homelift sector, we embrace design principles of art, safety, and sustainability. With decades of experience in homelift R&D, we create safe, comfortable, intelligent, and aesthetically pleasing spaces, widely used in various types of homes. Our customizable services blend technology and art seamlessly.

# Safety Smart.

Exceptional Design Creativity

MADE IN SWEDEN

## Safety

- Sensitive platform edges
- Automatic Emergency leveling
- Overload Protection
- Wireless telephone
- Emergency Stop button
- Fire Emergency Return

## Smart control system

- Battery Monitoring System
- Automatic Double Swing Doors
- Intelligent Service Panel
- Automatic Lubrication System
- OTA(on the air)

## UPS Emergency Landing

Even during power outages, our homelift operates on battery backup, ensuring safe descent to the ground floor. It also provides continuous 24-hour emergency lighting.

Artistic lift brightens aesthetics of life

# Stability

Screw-driven platform lifts feature four core technologies for a smooth, shock-free experience:

**ELGO Speed Module(Germany)**

**Silent technology of Roller Guide Shoe Technology**

**Fully Automatic Door System**

**Integrated guide rail**

# Simplicity

The simpler the design, the more profound and powerful it becomes. Experience the minimalist beauty of our artistic homelifts. No Pit, No Shaft, No Machine Room Required. Simple mechanical structure without counterweight.

# Silence

## New generation hover brake system

Our next-generation brake system, powered by direct current, ensures active braking with reduced contact area, minimizing noise and wear for enhanced comfort.

## Technology for a quieter ride

# Aesthetics

128 RGB Ambient Lighting with adjustable color options

Three-Sided Panoramic Glass View

Customizable Colors

Seamless, Rivet-Free Design

# How to choose the right home-lift?

## HOUSTY CLASSICAL

HOUSTY CLASSICAL

HC

# Technology & Aesthetics

The HC Series embodies the perfect blend of technology and aesthetics.

Following our philosophy of simplifying complexity, it combines art and craftsmanship to deliver a smooth, quiet ride from start to finish, enhancing a more comfortable and imaginative life.

HOUSTY CLASSICAL | HC

The Ultimate Integration  
of Technology  
and Aesthetics

Our lifts represent the epitome of both technology and aesthetics, blending luxury and elegant design seamlessly into any home environment, becoming a unique piece of art for every homeowner.

Product	Configuration description
Drive Mode	Screw Nut Drive Control
Control System	SSID Intelligent Control System
Door Lock System	Electronic and Mechanical Safety Interlock
Silent Brake System	SSG Brake System
Rolling Guide Shoes	Silent Operation, No Lubrication
Automatic Lubrication System	Continuous Lubrication, Extends Core Components' Lifespan
Wireless Emergency Communication	Can Store 3 Emergency Contact Numbers, One-touch Dial
Automatic Leveling on Power Outage	Dual Protection (Battery + Mechanical Handle)
Touch Control External Call	Precise Control, Easy Operation
Built-in Functions	SAFS Full Safety System, ID Intelligent Elevator Door, BASS Battery Monitoring System, OLP Overload Protection, UPS Backup Power Emergency Descent, etc.
Door Lock System	Electronic and Mechanical Safety Interlock
Emergency Brake	Respond to All Emergencies
Control Panel	Touch Panel, Precise Control, Easy Operation
Platform Safety Frame	Emergency Stop on Touch
Speed	Standard: 0.15m/s Optional: 0.3m/s
Shaft Profiles	Using High Grade (6005-T5) Aerospace Aluminum Profiles
Shaft Glass	Using Double-layer Laminated Explosion-proof Tempered Glass (5mm + 0.76mm + 5mm)
Sustainability	95% of Product Components are Recyclable
Technical Standards	Referencing European Standards EN81-41, European Machinery Directive 2006/42/EC

HOUSTY SPECIAL

HS

# Special Solutions for Unique Spaces

Master of Aesthetic Art

The new generation of car-type screw homelifts is specially designed for villas or duplexes with existing shafts. It is installed in the shaft and is more integrated into the existing architectural form. It not only has the characteristics of screw-type homelifts such as no pit and no machine room, high space utilization, high safety, and easy maintenance, but also takes high-end art as inspiration. The interior decoration design of the car is customized according to personal preferences, which helps to promote a better life and worry-free travel.

**HOUSTY SPECIAL | HS**

The HS Series is a car-type screw-driven lift designed for small shafts and large spaces, combining aesthetic appeal and practical functionality to create a comfortable home environment.No Pit or Machine Room Required.Enhanced Space Utilization.Customizable Interior Design for a personalized touch.Specifically crafted for villas or duplex homes with existing shafts, the HS Series allows for complete interior customization, providing a unique experience with distinct personality and texture.
